SOLDIER BONUS BILL NOW ASSURED OF PASSAGE

SOLONS READY PROCEED WITH GREAT MEASURE

Hanford McNider Says Canvass
Of Senators and Congress-
men Favors Measure

WILL PASS WITHIN A WEEK

Senators to Begin Consideration
Of Bill on Wednesday
Of This Week

WASHINGTON, Aug. 21.—Hanford McNider, national commander of the American Legion, in a statement today secured a personal canvass on the bonus bill legislation showed a majority in the senate, including both parties, favoring the bill and are pledged for passage. He predicted the bonus bill, which is slated for senate consideration, beginning on Wednesday will be passed by the senate this week.

AN ERROR OF OMISSION NOW CAUSE OF JOY

New Orebody and Good Ground
Opened for Belmont and
the North Star

An error of omission committed several years ago is today the cause of rejoicing among the officials of the mining companies of Tonopah, the Belmont and the North Star, for to one it gives great additional tonnage of good ore and to the other was good ground to prospect.

A. E. Lewis, superintendent of the North Star, who the latter part of last week returned from a stockholders' meeting of his company at San Francisco, made the discovery, or rediscovery some time ago when he is prospecting on the 550-foot level of his property, inadvertently discovered the vein which cuts the corner of the Belmont claim. He reported his find to the Belmont people and they immediately started digging on the desert Queen shaft, with the result that a 20-foot vein of ore was tapped. The new ore body is located by a raise driven several yards, also from the 550-foot level of the Belmont, but because it was so close to the North Star no lateral work was done, and at that time for some reason the raise was not made on the Belmont map and its existence was forgotten, until after Mr. Lewis' report.

Some two weeks ago, before leaving for San Francisco, Mr. Lewis stated to a representative of the Bonanza that large development was being performed in the upper workings of his mine, although he was reticent regarding results being obtained, but admitted that the outlook for increased production was most promising.

The new 20-foot vein on the Belmont, Mr. Lewis believes, continues into his property, inasmuch as some work done farther back in the North Star ground opened a small vein of rich ore on the 550 level near the Belmont fault, which may prove to be the same vein. If so, there is about 120 feet of dipping ground between this point and the Belmont raise, which is six feet from the property line on one side and eight feet on the other. The ore extracted will be taken out through the Desert Queen shaft and milled at the Belmont mill.

CAMP OF NIVLOC IS ATTRACTING NEW INTERESTS

Nivloc Extension Company May
Be Reorganized Within the
Near Future

Reorganization of the Nivloc Extension Mining company, controlling six claims on Red Mountain Silver Peak mining district, will probably be completed within a short time. This property is an extension of the famous Nivloc group which has been receiving attention during the past few months. On the latter property the shaft has now attained a depth of 450 feet and it is reported that a body of ore having a width of 167 feet is showing, that carries average values of from \$12 to \$14 a ton.

The property is better known as the Stimler and is controlled by a Mr. Stimler, a Chicago capitalist. The Nivloc Extension is controlled by H. C. Stimler and others residing in Tonopah, but Mr. Nivloc also owns a large block of shares, and when the reorganization has been completed he will no doubt retain his interests in both companies. The Nivloc Mining company, which is receiving attention at the present time is held at \$300,000 by Mr. Nivloc, who practically owns the controlling interest of stock. The shaft on the two properties is about 175 feet apart and on the Nivloc Extension a large body of milling grade ore is exposed at a depth of 50 feet.

The camp of Stimler lies between Argentine and Silver Peak, both of the latter camps having been at various times a great deal of attention during the past year or more. With renewed activity at Stimler, the attention in question will be given redoubled and the next few months should witness a great deal of activity in all three districts.

AN ERROR OF OMISSION NOW CAUSE OF JOY

New Orebody and Good Ground
Opened for Belmont and
the North Star

An error of omission committed several years ago is today the cause of rejoicing among the officials of the mining companies of Tonopah, the Belmont and the North Star, for to one it gives great additional tonnage of good ore and to the other was good ground to prospect.

A. E. Lewis, superintendent of the North Star, who the latter part of last week returned from a stockholders' meeting of his company at San Francisco, made the discovery, or rediscovery some time ago when he is prospecting on the 550-foot level of his property, inadvertently discovered the vein which cuts the corner of the Belmont claim. He reported his find to the Belmont people and they immediately started digging on the desert Queen shaft, with the result that a 20-foot vein of ore was tapped. The new ore body is located by a raise driven several yards, also from the 550-foot level of the Belmont, but because it was so close to the North Star no lateral work was done, and at that time for some reason the raise was not made on the Belmont map and its existence was forgotten, until after Mr. Lewis' report.

Some two weeks ago, before leaving for San Francisco, Mr. Lewis stated to a representative of the Bonanza that large development was being performed in the upper workings of his mine, although he was reticent regarding results being obtained, but admitted that the outlook for increased production was most promising.

The new 20-foot vein on the Belmont, Mr. Lewis believes, continues into his property, inasmuch as some work done farther back in the North Star ground opened a small vein of rich ore on the 550 level near the Belmont fault, which may prove to be the same vein. If so, there is about 120 feet of dipping ground between this point and the Belmont raise, which is six feet from the property line on one side and eight feet on the other. The ore extracted will be taken out through the Desert Queen shaft and milled at the Belmont mill.

BROADGAUGE TO BE REFINANCED AND OPERATED

Holdings are Situated Below
Tonopah Extension and in
Splendid Locality

The Broadgauge Mining company, controlling a group of claims below the Tonopah Extension holdings, is planning on the resumption of work after an illness of several years. Reorganization plans are under way and if nothing goes amiss then it will not be a great while until the holdings will be the scene of a great deal of activity. Past development has consisted of driving a tunnel for a distance of 200 feet, cutting one of the veins at a depth of 130 feet. From this point a drift has been extended for about 100 feet, a vein of ore having been followed that varies in width from five inches to a foot and a half, and carrying values averaging \$20 a ton.

The company at present is controlled by H. C. Stimler, well-known mining man of Tonopah, who serves as president, and C. L. Deady, serving as secretary. It is planned to pool all outstanding stock in the company and if the holders thereof sign up, as anticipated, then eastern capitalists stand ready to finance the new corporation, who will proceed with a well devised campaign of exploration through the sinking of a deep shaft.

TUBEROSE BRAND IS BEING EXHIBITED

Mohr & Drescher company of Sacramento, who are famous for their Tuberosa brand of canned goods, and whose artistic advertisements are appearing in the Bonanza, have a demonstrator at the Mine Workers' Mercantile company. Miss Nina Smith, the demonstrator, will remain four days, and the public is invited to partake of the delicacies which she is preparing from these popular goods.

KU KLUX KLAN CALL MINISTER FROM HIS WORK

Hand Him Letter Commending
Him for Efforts to Arouse
People to Use Ballot

TACOMA, Wash., Aug. 21.—Seven hooded and hooded in the regalia of the Ku Klux Klan entered the Rector Park Christian church here and handed a letter to Rev. Paul Bremer pastor, which was concluding his evening service yesterday. The message commended Bremer for his efforts to arouse his congregation to their duties in the use of the ballot.

REPARATION MAY BE SETTLED Idea Launched by German In- dustrials Seems to Meet With Favor

PARIS, Aug. 21.—Possibility of a direct and friendly understanding between Germany and France, which would include economic collaboration, will be given serious consideration for the first time in commercial and financial circles. Nearly all important newspapers discussed the suggestion that France will not insist on the payment of reparations, but will accept a German loan. The idea, originally launched by German industrialists, has been taken up now in French business circles.

PAN MOTOR HEAD TO SERVE PRISON TERM

ST. LOUIS, Aug. 21.—The sentence of Pan Motor, formerly head of the Pan Motor company, to ten years in the penitentiary and a fine of \$10,000 on conviction of the charge of using the mails to defraud, was affirmed today by the United States circuit court of appeals.

PRESIDENT BELIEVES IN MILITARY TRAINING

WASHINGTON, Aug. 21.—President Harding, in an address today to the citizens of the city of Camp Meade, Maryland, declared he favored military training for the young civilians, and not for any prospective aggressive warfare, but to preserve peace.

REXALL DRUG STORE HAS CHANGED HANDS

An important business deal was closed today when C. H. Southworth purchased the Rexall drug store from J. C. Piercy, Jr. R. G. Fleming, formerly of Langley & Michaelis of San Francisco, will be responsible clerk, with Mr. Southworth in direct charge of the institution. Possession has already been given by Mr. Piercy, who contemplates going to Chicago, where he may engage in business. Official announcement of the sale will be made by Mr. Southworth in tomorrow's issue of the Bonanza.

S. P. IS ALLOWED TO ABANDON LINE

Word received in Carson City by the public service commission of Nevada from the interstate service commission is to the effect that the Southern Pacific company has been granted the request to abandon its branch line into Metropolis in Elko county. J. P. Shaughnessy has announced that he will take the matter up with the railroad company to have a one-week service maintained.

FRANCE LIKELY TO AGREE UPON GERMAN PLANS

Will Include Close Economic
Collaboration Between the
Two Countries

PARIS, Aug. 21.—Possibility of a direct and friendly understanding between Germany and France, which would include economic collaboration, will be given serious consideration for the first time in commercial and financial circles. Nearly all important newspapers discussed the suggestion that France will not insist on the payment of reparations, but will accept a German loan. The idea, originally launched by German industrialists, has been taken up now in French business circles.

WILSON DIVIDE TO TAKE OVER THE BUCKHORN

Large Development Will Follow
And Plans Prepared to
Explore Holdings

E. P. Callahan, well known mining man, arrived in Tonopah this morning from a visit of several days in Los Angeles, where he maintains his home. Mr. Callahan is here at this time to attend a directors' meeting of the Wilson Divide Mining company, which is taking over the Buckhorn property at Stone Cabin.

Since taking over the Buckhorn property from E. Marty, Carl Monahan and associates the holdings have been equipped with hoist and many improvements have been made about the premises. Operations are being centered on the 160-foot level of the shaft workings and there is reported as being a splendid ore showing in evidence. It is understood that large funds are to be provided to insure the thorough development of this most promising property, which means that the shaft will be lowered a good distance.

ANNUAL ROUNDUP IS AGAIN ASSEMBLED

The fall roundup has started at Stone Cabin and about twenty cowboys are now assembled at that place. These events are always looked forward to with much interest by the business and they derive much entertainment from taming the wild horses that they use in assembling the cattle and horses.

WILSON FUNERAL TOOK PLACE THIS MORNING

J. F. Wilson, who died of tuberculosis last Saturday, was buried this morning from the undertaking parlors, interment taking place in the local cemetery. Wilson has three sisters living in Utah and no word was heard from them concerning the disposition of the remains, despite the fact that wires were sent to them informing them of their brother's death.

CALIFORNIA WILL SPEND LARGE SUM

SACRAMENTO, Calif., Aug. 21.—Revenue from all sources for the support and maintenance of the state government for the fiscal year which began July 1 will total \$41,221,000, according to a statement to the state board of equalization. The statement declares the revenue will be sufficient for all purposes and that no deficiency or other ad valorem taxes will be required.

MAN BURNED TO DEATH IN HOT WATER SPRINGS

Devil's Tea Kettle Hot Springs
Carries Water of Unusually
High Temperature

KLAMATH FALLS, Aug. 21.—Frank Albert, 50, died last night from burns received when he fell into "Devil's Tea Kettle" hot springs here. He lost his footing while filling a barrel for household use and plunged into the spring, whose temperature is about 127 degrees. He was in the water several minutes before his screams brought assistance.

CU KLUX KLAN ARE HELD TO LAST HEARING

LOS ANGELES, Aug. 21.—There is no evidence in the case against the Ku Klux Klan, former king of the Klans, and W. H. Cohn, former grand wizard of the Ku Klux Klan, who is standing in to a jury, was held to last hearing.

WILSON DIVIDE TO TAKE OVER THE BUCKHORN

Large Development Will Follow
And Plans Prepared to
Explore Holdings

E. P. Callahan, well known mining man, arrived in Tonopah this morning from a visit of several days in Los Angeles, where he maintains his home. Mr. Callahan is here at this time to attend a directors' meeting of the Wilson Divide Mining company, which is taking over the Buckhorn property at Stone Cabin.

Since taking over the Buckhorn property from E. Marty, Carl Monahan and associates the holdings have been equipped with hoist and many improvements have been made about the premises. Operations are being centered on the 160-foot level of the shaft workings and there is reported as being a splendid ore showing in evidence. It is understood that large funds are to be provided to insure the thorough development of this most promising property, which means that the shaft will be lowered a good distance.

BOYS FIGHT AND ONE DIES SHORTLY AFTER

PAIMIORE, Neb., Aug. 21.—Floyd Earl, 13, is dead here following a fight Saturday night with John Schmitt, 11. The boys, who were attending the Paimiore school, got into an altercation and blows resulted. Floyd died shortly after the fight. The sheriff and county attorney held an inquest yesterday, at which it was brought out that the dead boy was subject to heart trouble. Schwartz had no been arrested.

RAISE PAY JAPS AND CUT OUT HOLIDAYS

TOKIO, Aug. 21.—Besides lowering part of their summer holidays, the officials of Japan are to work longer hours. Hereafter they had longer holidays during the hot summer which extends from July 10 to Sept. 10. The officials taking it in turn to be away, while those on duty were only called upon to work from 8 until noon. Even in winter they were only in their offices from 9 to 4. The revision just decided upon by the cabinet makes the working day all the year around 9 to 4 and allows only twenty-three days holiday in year, which includes three days at the New Year. As the officials had their salaries raised 70 per cent last year, the local papers think they have nothing to complain of in being compelled to work longer hours.

STRIKERS HELD VIOLATION OF COURT ORDERS

Attacked Union Pacific Worker
By Calling Worker 'Scab'
At Council Bluffs

COUNCIL BLUFFS, Ia., Aug. 21.—Charged with violation of the federal restraining order by the use of the epithet "scab" and attacking Mike Panovich, an employee of the Union Pacific, six former employees of the held under bond after a preliminary hearing before the United States commissioner.

COLONEL WEINSTOCK IN SERIOUS CONDITION

PAID AUTO, Aug. 21.—The condition of Col. Harry Weinstock, former state militia commander, who was struck from his horse and seriously injured at Los Altos, near here, yesterday, was unchanged today. It was said at the hospital here.

WINNEMUCA MAN KILLED BY FORMER ASSOCIATE

CLARK COUNTY, Nev., Aug. 21.—A man named Winnemucca, who was shot and killed last Friday night by John Harris, the Sheriff, is said to have been a former associate of the late Sheriff.

NEW DISCOVERY GYPSUM MADE NEAR TONOPAH

Exact Location Being Kept Secret Until Ground Desired
Has Been Staked

Nye county, with its wonderful mineral resources, both mining and industrial, promises to furnish an endless surprise or surprises by reason of the discovery of a substantial deposit of both gypsum and natural soap, with a possibility that colemanite will be uncovered in due course of events. The find was made by Dan Heinemann, who has been prospecting 30 miles from Tonopah, but who refuses to divulge the exact location until he has completed location of the claims desired. At present he has proved a large body of gypsum which lies in a flat vein, and underneath which he has developed a fine body of soapstone, which is greatly desired by the big oil companies of the country, the transfer of a number of deposits near Shoshone, Inyo county, California, having created a wide search for these materials two years ago.

There are two deposits of gypsum exposed, one being from two to three feet wide and the other two feet wide. The deposits can be traced on surface for four miles and the gypsum has a depth of from four to six feet. Underneath is found natural soap, and both minerals are reported as being unusually pure, which means that they can be rapidly placed upon the market, as the demand is unusually strong.

The soapstone shows sparkles of colemanite and it is believed that a substantial deposit of the material will be found underneath the soapstone, and if such proves the case, then the new district, which is believed to be in Esmeralda county, will enjoy a real excitement. The fields are said to be located within 15 miles of the railroad, with a splendid road having an even grade. This will make it possible for the operators to deliver their product at the lowest possible cost, the same to be shipped to either Los Angeles or San Francisco, where the demand

BUTLER —THEATRE— —TODAY—

"CAMERON OF THE
ROYAL MOUNTED"

A civil story of the north-west presented. A screen drama filled with action and adventure. The best of the great outdoors. Indians, half-breeds and gamblers—the most colorful assemblage of frontier characters ever shown in a motion picture.

Lower floor, 30c; balcony, 25c; children, 20c.

Tomorrow, Tom Mix in "UP AND GOING"

MUCH ALARM IS FELT MANCHURIA BY BRITISHMEN

Chang Tso Lin Threatens to
Withdraw Protection to
Lives and Property

PEKING, Aug. 21.—Great alarm is felt by British subjects throughout Manchuria over the threat of Chang Tso Lin, governor of the province, to withdraw his protection of British lives and property in reprisal for what he calls British contempt of his authority. Chang declares the Manchurians are contemplating a boycott of British business and says he will not be responsible for action taken by his people if the present conduct of British subjects in Manchuria continues.

The text of Chang's speech was published in the newspapers of Aug. 12 and it developed Chang meant several American and British merchants to be hounded in Mukden. There is the possibility of the Americans for having attacked the British in a speech, and he made no reference to the Americans. The threat coming from one of China's most powerful military governors, has created much concern in British circles in China. It is understood the British legation here has been busy in investigation of the matter preparatory to sending a protest.

TONOPAH BELMONT MAKING SHIPMENT

Tonopah Belmont Development company completed its reorganization this afternoon following the result of objections to the mill for the first half of August. The reorganization, which will start tomorrow morning, consists of 1,000 shares, weighing 1,000 tons and having a value of \$100,000.

FRUIT SHIPPERS HURRY CROPS OVER RAILROADS

PHOENIX, Ariz., Aug. 21.—Trips to the fruit and vegetable markets of the fruit shippers and packers of this district to catch up with fruit shipments after a delay by a winter storm on the Santa Fe. Both the Southern Pacific and Santa Fe reported they are handling more than normal shipments for this time of the year.

For gypsum, natural soap and colemanite is unusually heavy.

Mr. Heinemann, who is an old-time resident of Tonopah and southern Nevada, is busily engaged this week in making locations of ground and in prospecting the ground and he hopes to have matters shaped up whereby he can inform the world of the exact location of the discovery. He has brought samples of the gypsum and natural soap to Tonopah and they are attracting a good deal of attention and speculation.
